

# NATA Training & Education Services July to December 2017

|   | JUL     | AUG     | SEP     | OCT | NOV            | DEC |
|---|---------|---------|---------|-----|----------------|-----|
| <b>Adelaide</b>   |         |         |         |     |                |     |
| Internal Audits (2 days)  |         |         | 27 - 28 |     |                |     |
| Maximising robustness and reproducibility in research(2 days)             |         |         |         |     |                |     |
| Quality Control in the Microbiological Laboratory (2 days)                |         |         |         |     |                |     |
| Quality Management in the Laboratory                                      |         |         |         |     | 21 - 23        |     |
| Supervisors and Managers for the Laboratory (2 days)                      | 26 - 27 |         |         |     |                |     |
| Understanding NATA's ISO/IEC 17025 Requirements (1 day)                   |         |         |         |     |                |     |
| Understanding NATA's ISO15189 Accreditation Req. for Medical Labs (1 day) | 25      |         |         |     |                |     |
| <b>Brisbane</b>   |         |         |         |     |                |     |
| Internal Audits (2 days)  |         | 9 - 10  |         |     |                |     |
| Lab Assessor/Lead Assessor (4 days)                                       |         |         |         |     |                |     |
| Maximising robustness and reproducibility in research(2 days)             |         |         |         |     |                |     |
| Quality Control in the Microbiological Laboratory (2 days)                |         |         | 20 - 21 |     |                |     |
| Quality Management in the Laboratory (3 days)                             |         |         |         |     | 29 Nov – 1 Dec |     |
| Supervisors and Managers for the Laboratory (2 days)                      |         |         | 18 - 19 |     |                |     |
| Understanding NATA's ISO/IEC 17025 Requirements (1 day)                   |         |         |         |     |                |     |
| Understanding NATA's ISO15189 Accreditation Req. for Medical Labs (1 day) |         |         | 12      |     |                |     |
| <b>Darwin</b>   |         |         |         |     |                |     |
| Internal Audits (2 days)  |         |         |         |     |                |     |
| Understanding NATA's ISO/IEC 17025 Requirements (1 day)                   |         |         |         |     |                |     |
| <b>Melbourne</b>  |         |         |         |     |                |     |
| Internal Audits (2 days)  | 25 - 26 |         |         |     | 15 - 16        |     |
| Lab Assessor/Lead Assessor (4 days)                                       |         |         |         |     |                |     |
| Maximising robustness and reproducibility in research(2 days)             |         |         |         |     |                |     |
| OECD Principles of Good Laboratory Practice (2 days)                      |         |         |         |     |                |     |
| Quality Control in the Microbiological Laboratory (2 days)                |         |         | 13 - 14 |     |                |     |
| Quality Management in the Laboratory (3 days)                             |         | 22 - 24 |         |     |                |     |
| Supervisors and Managers for the Laboratory (2 days)                      |         | 9 - 10  |         |     |                |     |
| Understanding NATA's ISO/IEC 17025 Requirements (1 day)                   |         |         |         |     |                |     |
| Understanding NATA's ISO15189 Accreditation Req. for Medical Labs (1 day) |         |         |         |     | 14             |     |

# NATA Training & Education Services July to December 2017

|   | JUL       | AUG     | SEP         | OCT     | NOV     | DEC |
|---|-----------|---------|-------------|---------|---------|-----|
| <b>Perth</b>  |           |         |             |         |         |     |
| Internal Audits (2 days)  |           |         |             |         | 1 - 2   |     |
| Lab Assessor/Lead Assessor (4 days)                                       |           |         |             |         |         |     |
| Maximising robustness and reproducibility in research(2 days)             |           |         |             |         |         |     |
| Quality Control in the Microbiological Laboratory (2 days)                |           |         |             |         |         |     |
| Quality Management in the Laboratory (3 days)                             |           |         |             | 10 - 12 |         |     |
